Re: Contact for MainStreet Online

MainStreet Online's four web sites, www.asheville.com, www.greenville.com, www.spartanburg.com and www.hendersonville.com receive visits from over 75,000 unique visitors each month, and average over 650,000 monthly file requests. The heavy visitor traffic on these four area web sites, which provide area news, information and weather to their viewers, make them great outlets for nonprofits through which to disperse information.

To get an event posted on any of the four web sites' calendar of events, simply email your event to info@asheville.com, info@greenville.com, info@spartanburg.com or info@hendersonville.com. We will post your event on our calendar of events the same week it is received.

If you have a major event, email a press release, and MainStreet Online will consider posting a full story with pictures about your event.

MainStreet Online web sites also have lists of various categories of nonprofit organizations, so please check our web sites, and, if you do not see your organization listed, drop us an email about your organization. We will include your organization on the appropriate list.

We look forward to working with each of your organizations by helping you to publicize your events and functions free of cost.
